Satellite Validation Component

Satellite verification can now be conducted in real-time for operators within the UI.

agGrid interactions

Filters, counts and other UI additions to enhance satellite operator experience.

I joined a group of 6 UX Designers at Rocket to assist with several aspects for the government contract, ATLAS.

- We conducted visual design and data audits for the current web application.
- We then created a universal UI pattern and design system across all IPTs for messaging.
- Together, we perform ongoing UX/UI support for a multiple teams to improve user experience and ui consistency.

My Role

Staff UX/UI Designer

Duration

2 years

My Key Contributions

- User Sessions
- Screen Flows
- Prototyping
- Design and Data Audits
- Component/Pattern Designs
- Design Reviews

Tools Used

- Figma
- Zoom / Teams
- JIRA / Confluence

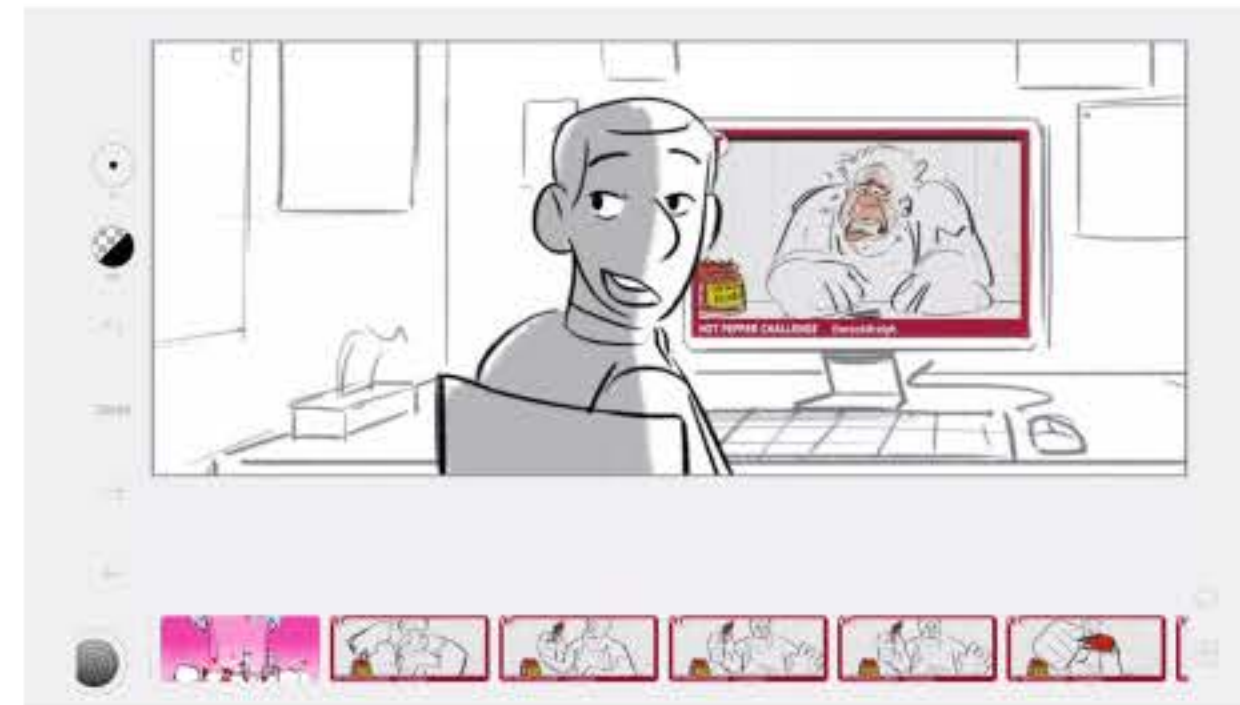

The Team

- 6x UX/UI Designers
- 30+ Developers
- 20+ Leadership

StoryPad successfully addressed the challenge of empowering collaborative storytelling within Walt Disney Animation and PIXAR Studios. Through user-centric research and iterative design, the app provided Storyboard artists with a powerful tool to enhance their creative process, enabling seamless collaboration and exploration of ideas.

The integration of Meander's vector drawing technology elevated the artistic experience, while user testing and feedback ensured a refined and user-friendly interface. StoryPad has become an invaluable asset in the production of Disney's animated films, fostering creativity, and inspiring the next generation of storytelling.

"Thank you guys for all your hard work. I'm excited to show your work to the team and the directors."

John Lasseter
Executive Producer at PIXAR Studios

My Role

UX/UI Designer

The Team

2x UX/UI Designers
10x Developers

My Key Contributions

Concept Ideation
Prototyping
User Research
Interaction Design
Iconography

Tools Used

Sketch App
InVision
Adobe Illustrator

Duration

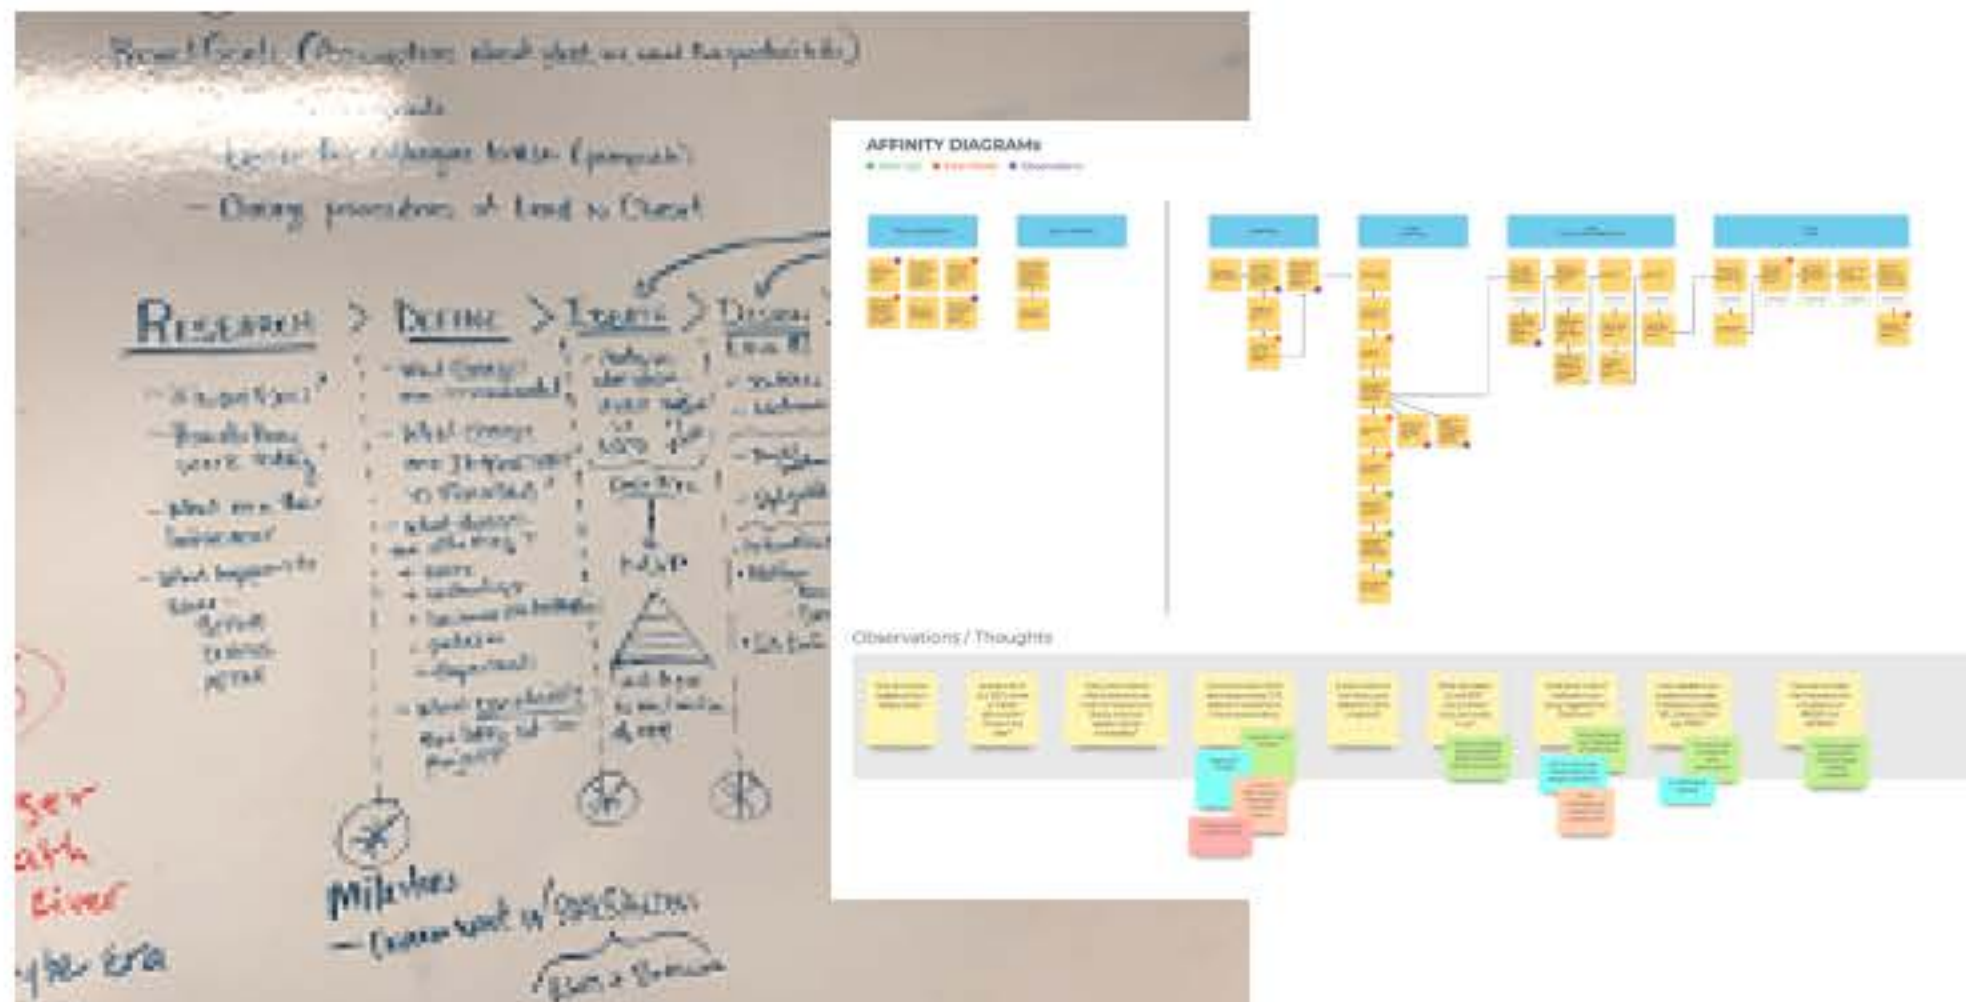

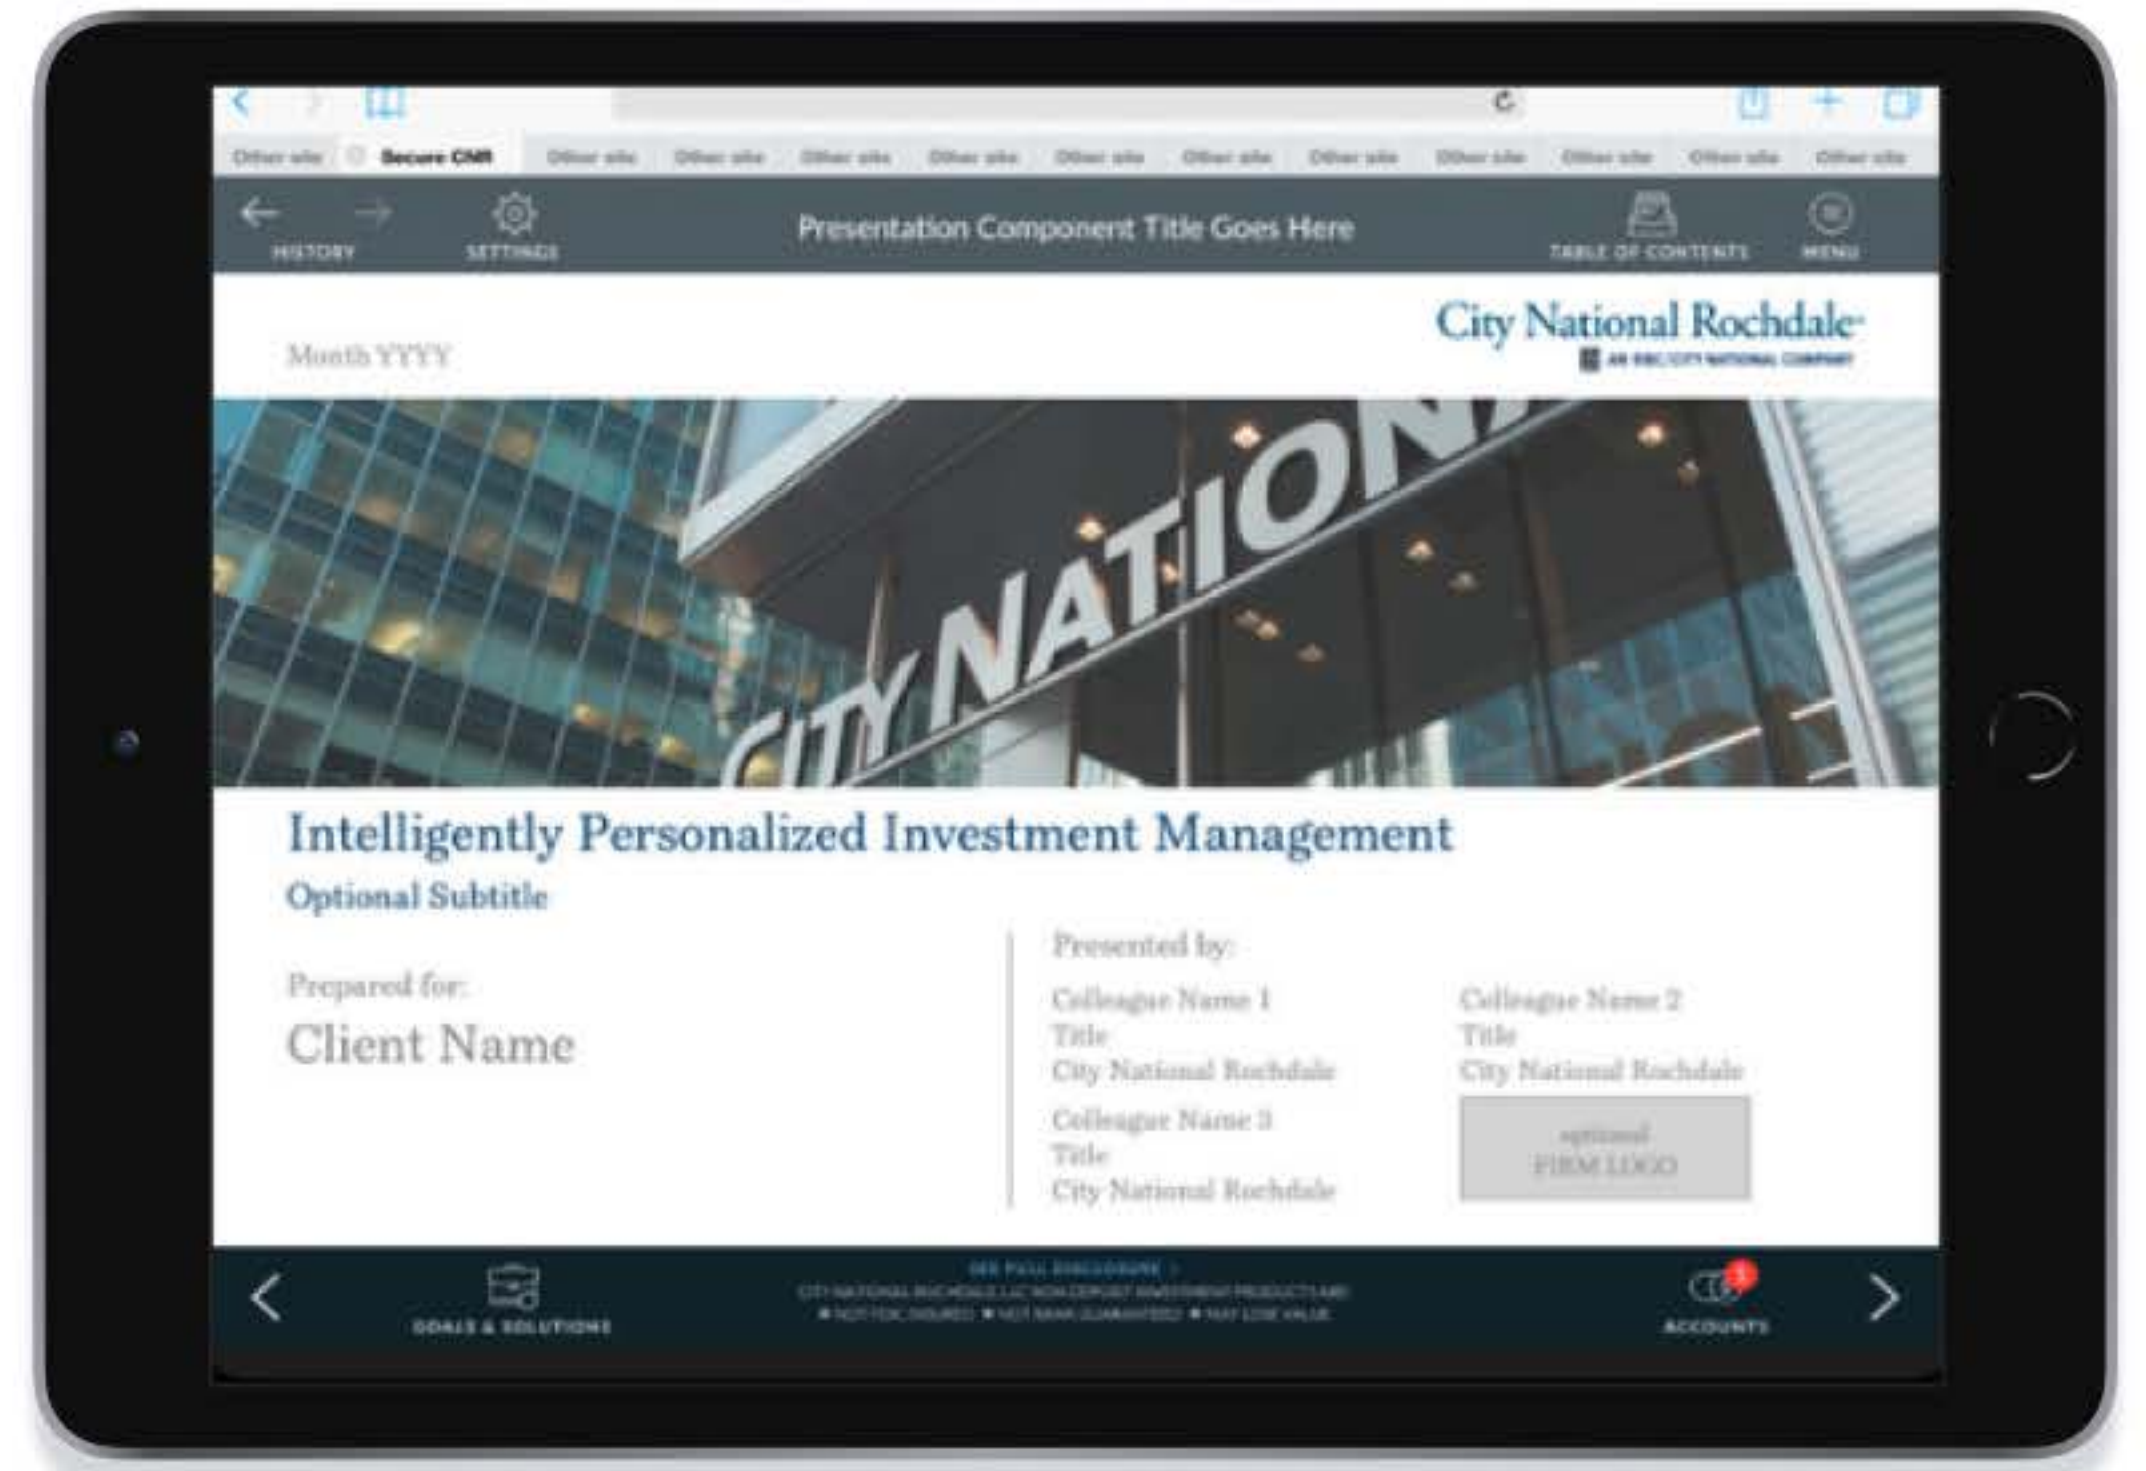

3 months

CNR was pretty stoked about their investment in Galaxy - and for good reason! Not only is it paying off financially, but it's also cut down the time needed to create a proposal by a whopping 80%. That's some serious time saved!

City National Rochdale's commitment to user-centric design and the adoption of robust UX methodologies played a crucial role in the success of CNR Galaxy. The application's intuitive interface, personalized proposal generation, and scenario analysis capabilities have revolutionized wealth management processes.

By prioritizing user needs, the firm has created a solution that empowers advisors, enhances client engagement, and positions City National Rochdale as an industry leader in delivering exceptional wealth management experiences.

My Role
 Lead UX/UI Designer

Tools Used
 Sketch App

JEAN HIMEBAUGH

Certified UX/UI Designer

Hello there! I'm Jean Himebaugh.

A certified UX/UI designer with a knack for turning complex problems into intuitive, delightful user experiences.

With over 10 years of experience, my superpowers include creating seamless user journeys, conducting insightful user research, and crafting powerful design systems that users and leadership both love.

I thrive in collaborative environments, and my sense of humor keeps the team spirit high. I'm looking for a team that shares my passion for UX/UI and allows for collaboration to create something amazing together!
